## Bigfork ACES Weekly Update - Dec 9, 2016

As part of the NASA Program this week, the kids wrote letters to Cathy explaining their role.

Here's Callie's letter...

Dear Cathy,

I'm working with NASA and I'm a Technical Engineer. Let me tell you about that.

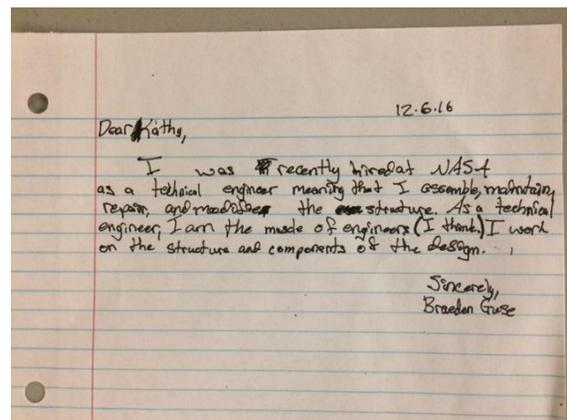

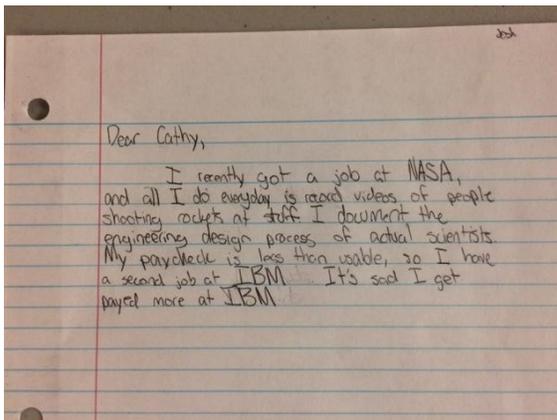

There are 4 jobs: The Design Engineer, Technical Engineer, Operation Engineer, and the Videographer. Each job has a part in the challenge.

The Design Engineer sketches outlines of the design. The Operation Engineer sets up the operates. The Videographer records and organizes information. the Technical Engineer (that's me) repairs the structural components of the design.

I hope you like our idea of the NASA group.

Sincerely, Callie

Sun, Dec 11, 2:00pm

Based on the beloved holiday film, this hilarious fish-out-of-water comedy follows Buddy the Elf in his quest to find his true identity.

Buddy, a young orphan, mistakenly crawls into Santa's bag of gifts and is transported to the North Pole. The would-be elf is raised, unaware that he is actually a human, until his enormous size and poor toy-making abilities cause him to face the truth. With Santa's permission, Buddy embarks on a journey to New York City to find his birth father and discover his true identity. Faced with the harsh reality that his father is on the naughty list and that his half-brother doesn't even believe in Santa, Buddy is determined to win over his new family and help New York remember the true meaning of Christmas.

This modern-day holiday classic is sure to make every young performer embrace his or her "inner elf" with plenty of large ensemble numbers featuring elves and (New Yorkers) of every type.

A Perfect Way to spend time with your family during the holiday season!  
Tickets \$8-\$12 each
